SENATE ADJOURNS.

Extraordinary Session Brought to a Close

PROCEEDINGS OF THE LAST DAY

Business Rushed Through at a Rapid Rate—The Roach Investigation Resolution Not Voted On—All the Presidential Nominations Confirmed

WASHINGTON, April 17 — At 6 16 o'clock Saturday evening Vice President Stevenson declared the present extraordinary session adjourned After a six weeks session the work of Saturday was rushed along at a rapid gait, but at 6 o'clock it was still a mooted question whether the senate would succeed in its purpose as announced by the American Press of winding up the session Saturday

The senators were extremely anxious to get away and the evident displeasure of their colleagues caused those senators who were blocking adjournment to give way and permit the session to be hurriedly closed It was the understanding of Senator Candler and other Republicans that a vote would be taken on the Roach resolution but it fell by the wayside, and the session adjourned without it having been brought to a vote

All the nominations made to the senate, including those sent in Saturday, were hurriedly confirmed in an executive session with the exception of that of Hewson L Lamm of Wilmington, to be United States marshal of Delaware which under the rules went over upon objection by Higgins whose action was doubtless based on the fact that Attorney General Olney removed H C Mahaffy the Republican incumbent who was appointed Aug 2, 1890

The injunction of secrecy was not released from the much discussed Russian treaty

This special session of the senate was notable for the fact that not one of the president's nominees was rejected with the exception of the nomination of Eckles which was confirmed without a call of the yeas and nays and in which the objection was solely due to the nominee's lack of banking experience, there was no attempt even made to reject any of the persons nominated The friction which it has been said existed between the administration and the Democratic senators was not apparent in anything that occurred during the session

A great many important places on the government service yet remain unfilled but none of them are such as to make confirmation a necessity in advance of assumption of office Almost a score of foreign missions are still held by the Republican incumbents the most important being Russia Italy Brazil and Hayti In the treasury department Assistant Secretary Spaulding's successor has not been named as also the two comptrollers and a number of bureau chiefs to whom some stand a good chance of being permanently retained

In the war department Secretary Lamont has not yet selected his assistant secretary There are several assistant attorneys geneal to be named in the department of justice Postmaster General Bissel has been so pressed over postoffices he has seen able to give but little time to other places and has named only one of the higher departmental officers, viz Fourth Assistant Postmaster General Maxwell Secretary Smith has pretty well cleaned up the presidential appointments in his department

Outside of these departments Civil Service Commissioner Roosevelt's successor and the successor to Public Printer Palmer are the most important places to be filled in the near future Mr Roosevelt is anxious to be permitted to retire and Mr Palmer will not be disturbed until his term expires in May

NOMINATIONS

Several Names Sent to the Senate Just Before That Body Adjourned

WASHINGTON April 17 —Late Saturday afternoon the president sent to the senate the nominations of Joseph S Miller of West Virginia to be commissioner of internal revenue and John W Rodgers of Minnesota to be secretary of legation to Turkey

The nomination of Miller is the most positive exception to the rule against the appointment of former officeholders to their old positions Miller having held the position to which he is nominated under Cleveland before He made a very efficient officer in that position and was backed for reappointment by the West Virginia delegation and others He withdrew at one time because of the rule but lately renewed his efforts on learning that he might stand a chance of being the exception to the rule Rodgers is a nephew of Judge Flandreau a well known northwestern pioneer He is an accomplished linguist and wanted to go to St Petersburg

Other nominations were as follows

John H Wise of California to be collector of customs for the district of San Francisco

William L Kee of West Virginia to be principal clerk on private land claims in the general land office

Howson F Lawson of Delaware to be marshal of the United States for the district of Delaware

Eight People Injured, Several of Whom May Die

WINFIELD, Ind April 17 —The passenger steamer Nellie Bly while making a trip down the river yesterday afternoon blew up, seriously injuring eight persons They were as follows:

When the accident occurred the boat was in shallow water The pilot had discovered that there was something wrong with the machinery and was steering for shore But for this fact it is probable that every person on board would have been lost

Jame Long was blown into the river and his rescue was accomplished with great difficulty by those who were not seriously injured

The boat sank immediately after the explosion

ESTABLISHING A PRECEDENT

A Test Case in Which All Convicts Are Interested

CINCINNATI April 17 —A year ago Bob Kinnaird, he not Kennedy as I before reported, shot and killed Joe Westerman in the streets in the front rooms He escaped upon a writ of error which was filed with the supreme court The law is clear that when the supreme court must sit for the filing of such a writ seven days up to the 30 days limited Last Saturday was the seventh day on which Kinnaird's attorneys must file said error Kinnaird's attorneys made application for a further time and the court granted it

But before any announcement was made Kinnaird's attorneys withdrew the application and filed the writ without a show of fight from the city Nobody was injured

Minor Lees was willing home on the Short Line train about 11 o'clock when some 50 scoundrels returning from the meeting came down the street They shouted and jostled him but did not molest him further than to run out in front of them and force him to walk at a quick step Lees turned and struck one of the fellows a blow on the back of the head The fellow then ran and disappeared in the darkness

Lees' wife was unaware and charged with the affair and a fight ensued in which two of the crowd were severely hurt Lees is not known to have been in the city since the fire and left without a word

Yesterday afternoon several prominent citizens said publicly will if occasion arose they would face the mob and protect Lees in his rights

Today the city is quiet and it is hoped that the matter will be settled without further trouble

A New Council to night

The sensational disclosures made by the arrests last Friday furnish additional proof that broad cloth does not as a rule cover the best hearts

The meeting of Republicans last night shows a determination to secure the State Convention of diligence will do it.—*Toledo Blade*

Diligence does not count for much toward securing a Republican Convention. The 'long green' has more weight

Commissioner Blount has proved himself the man for the occasion. He needed only a few days to intelligently size up the situation in the Hawaiian Islands, and then down came the American flag that had been raised there through the planning of a party of schemers. There is now some hope for a treaty, a result that could not be reached so long as the government was under the control of our own soldiers and sailors.

It is a decided advantage to the World's Fair managers to secure preliminary tests of the cyclone resisting quality of the buildings which they have erected in Jackson Park. If there be weak structures the vicious April gales may be relied upon to weed them out. It would be strange, indeed, if the wayward elements should fail to find defective spots in those huge piles of iron and glass, built on such an expansive scale and under conditions entirely unprecedented.

The city of Toledo has sued the Northwestern Gas Co and a few individuals for one million dollars, damages. It is alleged that the defendants ruined her financial credit and that she could not sell all her gas bonds. It is unfortunate for Toledo that her credit was not damaged before any of her gas bonds were put on the market. The town would have saved a couple of million dollars that have been thrown away, and a few pikers might have been worth less money than they have derived from the rake-off.

A Connecticut Fad

There is a movement in Connecticut to erect a monument to the memory of the poet James Gates Percival. He was a peculiar man and had all of the poet's idiosyncrasies. On one occasion he was invited to meet a number of gentlemen in New Haven who were in their turn notified that they were to have the pleasure of meeting the poet. He was to be, in fact the honored guest of the evening. They were all on hand but Percival did not put in an appearance. Allowances was made for his utter indifference to the passing of time and on to midnight he was expected.

At last as morning drew near deeming it certain that the poet had forgotten the invitation the guests went home and the host put out the lights and went to bed. At about 3 o'clock in the morning he heard some one at his front door went down, asked the object of the call and found that it was Percival. The astonished host let the poet in and the latter blandly said that he had inferred from what had been said that there were to be others present. The host told him that the others had all gone home. The poet expressed regret and settled himself down for a good smoke and talk which kept up, to his host's embarrassment till the sun rose.—Boston Transcript.

General Vallejo and Fremont

When the destiny of the province of California hung in the balance and England and Russia as well as the United States, eagerly held out hands for the prize General Vallejo unhesitatingly gave his adherence to the stars and stripes. Fremont doubted and imprisoned him, but soon set him free.

One day during that imprisonment a young American officer doubtless a spy sent by Fremont rode up to the family residence in Sonoma and offering to Mrs Vallejo an English and an American flag asked in Spanish 'Senora, which of these do you prefer?'

The lady looked at him a moment as if to read his purpose, then clasping the American flag to her bosom she kissed its folds and said 'This is the flag my husband has taught me to love. It is the one he wishes to see wave over his beloved California.'

The officer smiled and bowing gracefully to all present took his departure.

A lady who stood watching the courteous American as he rode away turned to Mrs Vallejo and said 'No es Oso' (That is no Bear) meaning that is not one of the Bear Flag party.—Emily E. Powell in Harper's.

WOMAN'S WORLD.

THE FIRST GRADUATING CLASS OF BARNARD COLLEGE

An Irish Girl Artist—A World's Fair Outfit—Miss Mitchell's Long Trip—A Southern Girl's Views—More Threatening Than Crinoline—Feminine Votes Protect a Man.

Barnard college will send out its first graduating class this coming June. The members eight members who will receive their degrees and diplomas in company with the graduating classes of Columbia college, the school of mines and the law school.

They have adopted the university cap and gown which they don over day clothes in entering Barnard and lay aside only on leaving. This style gives the young senior a picturesque and learned air, recalling to mind F. S. Church's painting "Knowledge is Power."

There are now the four regular classes. The freshman class has a roll of 37 members, which is an increase of 23 over the first year's freshman class. The work done by the girls in the four years course is identical with that accomplished by their brothers at Columbia college.

Besides the regular curriculum there are two departments in pure science—chemistry and botany. The botanical laboratory was the gift of the Torrey club and its purpose is to lay the foundation for a school of scientific investigation—to offer to students such opportunities for the study of botany as shall enable them to continue it after years. The two departments have prospered beyond expectation.

If the Fayerweather bequest now in litigation, be granted to Barnard the trustees propose to expend it upon a site that shall be within 1 000 feet of the new site for Columbia. In so doing they fulfill the conditions required for Barnard to receive the $100 000 promised for the erection of a new college building.

This young institution placed upon its uncertain footing as a venture, has made such rapid and successful strides forward that Barnard may safely claim the proud distinction of being the happiest accident in the history of woman's education."—Harper's Bazar.

An Irish Girl Artist

Miss Mary Redmond, whose colossal statue to Father Mathew has just been unveiled in Dublin may claim the distinction of being the youngest sculptor who has received commissions for important public monuments. She was not out of her teens when her model was selected out of 23 designs sent in for the memorial to the late District Inspector Martin, who was murdered in Donegal. The officers of the Royal Irish constabulary gave her the commissions on Aug. 17, 1889 and the completed monument was erected the following year in the hall of the officers' quarters in Phœnix park. In 1889 Miss Redmond modeled Mr. Dwyer Gray and Mr. Gladstone and her next great commission was the present monument to Father Mathew. Her model having won the competition she forthwith fitted up a studio and set up her design, having for a model a "choir boy" of 20 named Richard Hunter whom she had rescued from starvation.

By May, 1891 the colossal model was ready for the inspection of the committee. The gallant artist was awaiting the judgment of the committee when one day on going to the studio she found Hunter who had resented his dismissal meeting her at the door and told her he had "done for her statue." The statue was indeed a ruin for even the framework was entirely destroyed. The boy was, on Wednesday, June 10 1891 condemned to seven years penal servitude. The brave girl having begged for an extension of time set to work again with such indomitable zeal that within a month the figure had once more taken shape. On May 21, 1892 the committee visited the studio for the second time and inspected the completed clay cast which they pronounced would contrast favorably with any existing portraiture of the kind in stone."—New York Press.

A World's Fair Outfit

I want to tell you about the wardrobe with which one young woman is fitting herself to stay two weeks in Chicago in the early part of the season. She has a plain broad bound tailor made suit of navy blue broadcloth, with jacket to match made double breasted, with a watteau plait in the back full sleeves and fastened with large buttons. She will provide herself with a fine small straw hat, with ribbon to match and tan chamois gloves and a pair of common sense shoes worn two months before she leaves home will insure her feet comfort and ease. She is going to make a black alpaca skirt as it will not soil and the dust can easily be shaken from it.

But it is her underwear in which there is a triumph of forethought. She expected to get two suits of linen—with the combination—wearing the one and putting the other in her satchel. These are quickly washed in a bowl if need be and easily dried and can be worn without ironing.

She is going to have a dark silk blouse to wear if the days are warm enough to make the cloth bodice uncomfortable, and with changes of black ties and some white silk handkerchiefs, which she so quickly made clean her outfit is completed. Of course she will take a pair of light rubbers, an umbrella and all the toilet articles which a young woman may need, but all these, with a night dress she can easily get into a grip of such modest size that it is not need not part company with it on the journey thus saving herself the vexation of having her baggage checked with all its accompanying annoyances.—Cor. Housekeeper's Weekly.

Miss Mitchell's Long Trip

A number of railroad men were discussing in a Chicago hotel the superiority of through car service and palace car arrangements and the excellence of minor depot accommodations in the United States. In the party were representatives of one or two foreign railroads who were disposed to question some of the statements made by the Americans when one of the party made the boast that a lady could leave Chicago for Port Land Or. thence to San Francisco the El Paso, Tex. and thence to the City of Mexico go to the top of the hill of Chapultepec, return to Laredo Tex., thence to St. Louis, New York and Boston and back to Chicago and need not put her foot upon the ground and that on 24 hours notice he would find a lady to undertake the journey.

The arrangements were entered into and the lady Miss Bess Mitchell of Chicago left for Portland, Or. via the Northwestern and Union Pacific railroad, thence on the tour and conditions named going via the Southern Pacific from Portland to San Francisco and El Paso thence over the Mexican Central to the City of Mexico returning via the Mexican National to Laredo, Tex., thence over the International and Great Northern Texas and Pacific and Iron Mountain to St. Louis to New York via the Wabash Michigan Central and New York Central and thence back to Chicago. It is not the object of the journey to make time, but to show the comfort convenience and safety of travelers on American railways.

A Southern Girl's Views

Imitating Washington English customs, it is not good form in New York select circles to introduce people at social gatherings. A young girl from New Orleans, who has been spending the winter here complains of this idea contrasting it very unfavorably with the good old fashioned hospitable way of the south, that brings guests together to know each other and enjoy each others social and personal attractions. The fair Louisianian declares that if the southern way is old fashioned it is a great deal better than the New York custom and that a strange girl coming to New Orleans has a far better time than a young woman in a similar position here.

This young lady, who considers a party at home stupid where she has not half a dozen men to dance with at once went to a musicale recently where the sole persons with whom she exchanged a word were her hostess and her chaperon. "Although" she said "men were standing along the walls three deep looking as though they were having a most delightful time.

At a dinner party she said her hostess depreciated the necessity which would not permit of her introducing her guest to any one but the man who was to take her out to dinner. More Threatening Than Crinoline

The disposition to alter the shoulder line of low dresses is more threatening than crinoline. English women have always had reason to be proud of their finely molded shoulders. In consequence the low dress of 1830, seen in old fashioned portraits of the young Queen Victoria and the portraits of Jenny Lind which of course so famous to this country always had greater vogue in England than elsewhere. Here Frenchwomen have always once each year shoulders strangely. This year's gaiety through fashion's strict mandates with the French possess above other nations an ideal shape. The dress by Charles Worth especially affects the shoulders and the arms are to the court of St. James.—London Journal.

Feminine Votes Protect a Handsome Man

The women of Providence, daughters of husbands, brothers and sweethearts of political tricksters, two years ago elected school trustees on the ticket to which they claimed their rights were being trampled in the mud by their lords and masters and boldly announced that they intended to rectify the wrong by electing a school trustee pledged to their interests.

They put forward as their champion Charles W. Saul the handsome station agent of the West Jersey railroad who has endeared himself to every female heart in the place by his obliging manners as well as his good looks. Saul willingly accepted the honor and the women set about to win. They canvassed the entire district. As a consequence the women were at the polls in force.

The main portion of the community were jealous of Saul and picked out their best man in the person of Squire F. N. Harris to run against him. Although the men hustled for votes they could not match the women, wives of the women and several masculine blacknumbers refused to vote at all as the women did. When the ballots were counted, Saul was found to have been elected by a majority of 10.—Cape May Cor. Philadelphia Record.

Her Summer Wrap

Mrs. J. Crosby Brown who has unlimited country homes on Orange mountain New Jersey gives outings every summer to poor women and children from the city. She has systematized this for the last nine summers so that each day she has given an outing to eight mothers from the purlieus of New York each mother bringing her children first of somebody else. Many of these women have not had a glimpse of the country for 20 years. Two carriages bring them from the railroad station. There is a house on the grounds where the women and their refreshments are given them three times in the course of the day and then how beautiful lawn for them to play upon. Mrs. Brown says that on one day she sent into a group of German mothers seated on the grass knitting in hand and on the next perhaps two carriage loads of colored people and so on.—New York Letter.

A Newspaper Worth the Name

The only full fledged crinoline which has appeared in the streets of London was worn one day this week by a young woman on the staff of an evening paper. Her costume was not a burlesque but was genuine old style crinoline made up attractively as a modern costume could build it. The young woman walked from the Embankment through Piccadilly, Regent street, Bond street and other fashionable West end thoroughfares followed most of the time by a howling mob of street gamins. Finally she took refuge in a bus and the conductor promptly charged her double fare for the extra space occupied. It is now safe to say that the crinoline craze in England has been passed safely. The Princess of Wales refusal to appear in full skirts has vetoed fashion's fatuities.—London Letter.

Why Tight Shoes Are Going Out

Tight shoes are going out of fashion, also high heels and pointed toes. The long slender, pointed foot is no longer considered a mark of blue blood since the unfatiguable pursuer for papers and magazines has given the exact shape and form of the feet of the bluest blood in Europe and the size of boots worn by queens and princesses of the royal blood. This information has done far more to convince the American girl who incidentally mentions the size of her boots and the time it last she calls for them than all the artists in sculpture have written or even the gilt measurements of the Greek statue representing beauty in its highest form. The latter was denied the former hence.—Proof that huge feet and hands may go with the bluest blood and movers.—Wives and Daughters.

Lent Playing In Boston Society

Lent will in Boston be observed recently followed the example of certain London circles with such marked success that she now expects poker dinner parties to become a regular form of entertainment, and at that seeks novelty in social games. The so called American game of poker has of late years fallen from favor in the best members of society but in high favor with the English aristocracy who have taken with the Yankee game to the court of St. James.—London Journal.

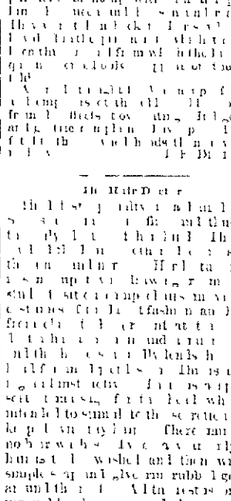
ROYAL APPETITES

Gluttony a Conspicuous Vice of Kings and Emperors.

LONDON, April 9.—Eating and drinking seem to have constituted the principal features of the recent royal and imperial wedding festivities at Vienna, Berlin and Sigmaringen. Royalty and gluttony seem indeed to go hand in hand. Thus the czar of Russia, an enormous eater and capable of disposing of an amount of food that would satisfy three ordinary men. Young Emperor William too is very bl...



PRINCE OF WALES

ent; and his proclivities in that respect are somewhat of course. The Prince of Wales on the continent is fond of delicacies and rich entertainments which are set before him, but does not partake on ordinary occasions of more than a moderate quantity of food. The amount of food he devours during the course of the day is something fabulous. He breakfasts at 11 o'clock on the afternoon of the day in question and what he knows as "a snack" which is about three hours later—consisting of a luncheon with all kinds of delicacies and drinks. At 6:30 o'clock in the afternoon there is what is known as "afternoon tea," but which is a square meal with liquors, pate de foie gras, sandwiches, hot chocolate and numerous other edibles of the coarse but delicately termed appetizers. Between 8 and 9 there follows dinner and shortly after midnight the prince has some delicacies, usually of a heavy nature, called a supper. I have only touched upon a few of the principal dishes of which royalty forms the closing meal of the day. In case an ordinary man undertook to satisfy the appetite of royalty during one of the Indian or Spanish feasts that are given in honor of the emperor and empress of India, he would be a dead man in short order. The Prince of Wales is not a drinking man, but he is a good liver. He rises at 11 o'clock and breakfasts on a cup of tea and a piece of toast. Then he takes a walk or a ride, and at 1 o'clock he lunches. He dines at 8 o'clock, and after dinner he smokes a cigar and sips a glass of brandy and water. He goes to bed at 12 o'clock. He is a very moderate eater and drinker, and his habits are regular. He is very fond of the theater, and has been a constant attendant at the opera for many years. Heiskell's Ointment

Is a sure cure for all forms of

SKIN DISEASE.

We base this assertion on our observation of over thirty years in which time many hundreds of cases of Skin Diseases have been reported to us and cured by the simple use of H. Heiskell's Ointment without the aid of internal remedies. Many of these were cases of long standing that had resisted the treatment of the most eminent medical talent in this and other countries. Heiskell's Ointment has never to our knowledge failed in a single instance.

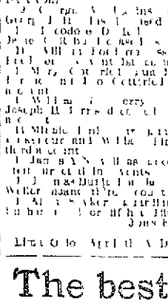
THE CAUSE OF LABOR REWARDED.

Doubly the victim of acute rheumatism I deem it a duty to unburden what the last few months suffered on the rack thereby, body and.

The seeds of rheumatism are calcium poisonous acids in the blood which lodge in the muscles and joints.

A certain and positive cure for rheumatism was never known until Dr. David Kennedy of Rondout, N. Y. discovered and used in his private practice the preparation now widely known as



Mr. E. B. Tayer

Dr. David Kennedy's Favorite Remedy.

Hundreds of the worst cases have been cured that have baffled the skill and methods of other physicians.

A notable case that has recently come to our notice is that of Mr. E. B. Tayer of East Nassau, N. Y. Mr. Tayer was afflicted with inflammatory rheumatism for fifteen years so severe that he was supposed to be a cripple for life.

Under the treatment of the best physicians he continued to grow worse, until he had given up all hope of recovery. In speaking of his case he said:

"I was induced to try Dr. Kennedy's Favorite Remedy and had used but part of a bottle when I felt a change. I continued its use, and after using a few bottles of rheumatism had disappeared. That was three years ago, and have had no return of the disease."

Dyspepsia, that complaint, kidney disease, eruptions of the skin, bilious disorders and all ordinary troubles arise from the same cause, excess of uric acid in the blood. Dr. Kennedy's Favorite Remedy destroys the uric acid, thus curing the disease. It has never failed when taken according to directions.

For book of testimonials sent free.

Dr. David Kennedy's Favorite Remedy is put up in two sizes, the large bottle containing more than the small. Sold by druggists at $1 per bottle.

Pure and Wholesome Quality

Commends to public approval the California liquid laxative remedy, Syrup of Figs. It is pleasant to the taste and by acting gently on the kidneys, liver and bowels to cleanse the system effectually, it promotes the health and comfort all who use it, and with millions it is the best and only remedy.

A Hint to Packers.

When packing gowns put tissue paper between the folds and crumple a sheet of it and thrust it in the sleeves. This will prevent creasing. Tapes tacked inside the trunk and tied tightly over will keep the contents from slipping, and save much rumpling. These are methods employed by Paris experts.

Few people realize that the nervous system has more to do with health of the body than the stomach, liver, and *all* the organs of the body which are so much doctored. They forget that the nerves reach and control all parts of the body. Hence many cases are misunderstood and wrongly treated.

Dr. Wheeler's Nerve Vitalizer is a nerve remedy of recent discovery by an eminent specialist, which acts directly and correctly on the nervous system to cure any nerve disorder. Is backed with an offer of $500 for an incurable case. $1.00 bottles or trial samples free at Edman & Stout, east side Public square, Lima.

TOO SLEEK.

Belief That a Moonshine Still in Located at Tipton.

PAYNE, O., April 16.—(Special.)—All seems quiet in the alleged moonshine district. A citizen of Tipton, which is in the midst of the Kentucky settlement, was seen to-day, and said that the Kentuckians ridiculed the idea of eight large men like United States Marshal Haskell and his posse of deputies, coming among them in broad daylight searching for a still on the public highway.

He conveyed the impression that they were too smart for Uncle Sam, having been in the business too long to be caught. He also said that there is a still in the vicinity of Tipton, it being located within a radius of three miles from town, and while the hunt was being made the officers were not near it. The opinion prevails here that there is a still near Tipton.

$10,000 DAMAGES.

The C & E Sued for That Amount for the Killing of C. S. Cory at DeCliff.

William Randolph, administrator of the estate of Christ S. Cory, has filed suit against the C. & E. railway company and asks for $10,000 damages.

The complainant alleges that Cory was station agent at DeCliff, and that he was attempting to set the brakes on a car standing on the side track, and that while he was upon the side track for this purpose, an engine was backed upon him and crushed him, that he had himself carried into the telegraph office and announced the accident to the main office so that no other accident should occur on account of delay of train at that point, and shortly died.

An account of the affair was published in THE TIMES-DEMOCRAT at the time of its occurrence.

MILITARY COURT.

The Conduct of Company B., O. N. G., Being Investigated.

During the past week a Court of Inquiry was held at Springfield, by Col. Kuert, of Kenton, the object being to investigate charges against the Third Regiment O. N. G. The court was held behind closed doors, and no report of the result will be made public until the Governor announces his decision. The charges were preferred by Lieutenant Wm. Bradford of Co. E, are as follows:

First—In taking money out of the regiment's funds.

Second—In refusing to turn over the funds to Captain Wagner, who it is claimed is the treasurer.

Third—Withholding Lieut. Colonel Whitely's commission.

Fourth—In not handing in a minority report to the State Adjutant General.

Many do know and all *should* know the merits of Brant's Balsam for Coughs, Colds, Asthma, all Throat and Lung troubles, which may be forerunners of Consumption. The cost of knowing its value is so slight (large 25 and 50 cent bottles), you will be wise to test it for its prompt use may save life. Mothers should know its value for spasmodic or Membraneous Croup, which need quick attention or the child may die. It relaxes the contracted muscles or loosens the false membrane, causing the child to throw it off, giving quick relief. Sold by Edman & Stout, east side Public square, Lima.

It is Good.

The more Chamberlain's Cough Remedy is used the better it is liked. We know of no other remedy that always gives satisfaction. It is good when you first catch cold. It is good when your cough is seated and your lungs are sore. It is good in any kind of a cough. We have sold twenty-five dozen of it and every bottle has given satisfaction. Celery After the Coffee.

Short, crisp bits of celery are passed about the table, after the black coffee of a course dinner, to accompany the cheese. A sensible freak of fashion, for the digestive qualities of celery have long been well known.

Who Says Rheumatism Cannot be Cured?

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort, gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her work. E. H. Johnson, of C. J. Photographs of Boston Girls.

Some years ago the cultured Boston girl surprised the world at large by eschewing the regulation style of photograph. She made herself quite famous at that time by posing as a nymph, mermaid or goddess. That extreme was abandoned as unworthy the Boston girl's enviable reputation for culture and good sense, but ever since no photo has pleased the fashionable belle unless it was highly artistic. It must be for the sake of ingratiating itself with the fair sex that a certain camera club in that city has recently expended quite a sum for amateur photograph props in the way of beautiful eastern stuffs, and girls invited to pose now consider it quite a compliment and keep the pictures as a valuable keepsake.—Brooklyn Eagle.

Defrauded of the Franchise.

It is almost inconceivable, but nearly 150 women in one little town who wanted to vote for school committee were cheated out of the elective franchise and then were so quiet and submissive that their fellow women of the commonwealth have scarcely heard of the outrage. Old Deerfield was the scene of this insult to womankind. By means of a technicality some of the registrars of voters forbade the women to register for the town election in March. Deerfield women are of the highest type of New England motherhood and citizenship, and there ought to be a way to get those men—if they can be so called—punished. —Springfield (Mass.) Homestead.

Bilious Colic Prevented.

Persons who are subject to attacks of bilious colic can almost invariably tell by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhœa Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. Pure and Wholesome Quality

A Hint to Packers.

When packing gowns put tissue paper between the folds and crumple a sheet of it and thrust it in the sleeves. This will prevent creasing. Tapes tacked inside the trunk and tied tightly over will keep the contents from slipping, and save much rumpling. These are methods employed by Paris experts.

Few people realize that the nervous system has more to do with health of the body than the stomach, liver, and *all* the organs of the body which are so much doctored. They forget that the nerves reach and control all parts of the body. Hence many cases are misunderstood and wrongly treated.

Dr. Wheeler's Nerve Vitalizer is a nerve remedy of recent discovery by an eminent specialist, which acts directly and correctly on the nervous system to cure any nerve disorder. Is backed with an offer of $500 for an incurable case. $1.00 bottles or trial samples free at Edman & Stout, east side Public square, Lima.

TOO BLEEK.

Belief That a Moonshine Still is Located at Tipton.

PAYNE, O., April 16.—(Special.)—All seems quiet in the alleged moonshine district. A citizen of Tipton, which is in the midst of the Kentucky settlement, was seen to-day, and said that the Kentuckians ridiculed the idea of eight large men like United States Marshal Haskell and his posse of deputies, coming among them in broad daylight searching for a still on the public highway.

He conveyed the impression that they were too smart for Uncle Sam, having been in the business too long to be caught. He also said that there is a still in the vicinity of Tipton, it being located within a radius of three miles from town, and while the hunt was being made the officers were not near it. The opinion prevails here that there is a still near Tipton.

$10,000 DAMAGES.

The C & E Sued for That Amount for the Killing of C. S. Cory at DeCliff.

William Randolph, administrator of the estate of Christ S. Cory, has filed suit against the C. & E. railway company and asks for $10,000 damages.

The complainant alleges that Cory was station agent at DeCliff, and that he was attempting to set the brakes on a car standing on the side track, and that while he was upon the side track for this purpose, an engine was backed upon him and crushed him, that he had himself carried into the telegraph office and announced the accident to the main office so that no other accident should occur on account of delay of train at that point, and shortly died.

An account of the affair was published in THE TIMES-DEMOCRAT at the time of its occurrence.

MILITARY COURT.

The Conduct of Company B., O. N. G., Being Investigated.

During the past week a Court of Inquiry was held at Springfield, by Col. Kuert, of Kenton, the object being to investigate charges against the Third Regiment O. N. G. The court was held behind closed doors, and no report of the result will be made public until the Governor announces his decision. The charges were preferred by Lieutenant Wm. Bradford of Co. B, are as follows:

First—In taking money out of the regiment's funds.

Second—In refusing to turn over the funds to Captain Wagner, who it is claimed is the treasurer.

Third—Withholding Lieut. Colonel Whitely's commission.

Fourth—In not handing in a minority report to the State Adjutant General.

Many do know and all *should* know the merits of Brant's Balsam for Coughs, Colds, Asthma, all Throat and Lung troubles, which may be forerunners of Consumption. The cost of knowing its value is so slight (large 25 and 50 cent bottles), you will be wise to test it for its prompt use may save life. Mothers should know its value for spasmodic or Membraneous Croup, which need quick attention or the child may die. It relaxes the contracted muscles or loosens the false membrane, causing the child to throw it off, giving quick relief. Sold by Edman & Stout, east side Public square, Lima.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort, gave Chamberlain's Pain Balm a trial. Photographs of Boston Girls.

Some years ago the cultured Boston girl surprised the world at large by eschewing the regulation style of photograph. She made herself quite famous at that time by posing as a nymph, mermaid or goddess. That extreme was abandoned as unworthy the Boston girl's enviable reputation for culture and good sense, but ever since no photo has pleased the fashionable belle unless it was highly artistic. It must be for the sake of ingratiating itself with the fair sex that a certain camera club in that city has recently expended quite a sum for amateur photograph props in the way of beautiful eastern stuffs, and girls invited to pose now consider it quite a compliment and keep the pictures as a valuable keepsake.—Brooklyn Eagle.

Defrauded of the Franchise.

It is almost inconceivable, but nearly 150 women in one little town who wanted to vote for school committee were cheated out of the elective franchise and then were so quiet and submissive that their fellow women of the commonwealth have scarcely heard of the outrage. Old Deerfield was the scene of this insult to womankind. By means of a technicality some of the registrars of voters forbade the women to register for the town election in March. Deerfield women are of the highest type of New England motherhood and citizenship, and there ought to be a way to get those men—if they can be so called—punished. —Springfield (Mass.) Homestead.

Bilious Colic Prevented.

Persons who are subject to attacks of bilious colic can almost invariably tell by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhœa Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. Strange Hallucination.

A female lunatic in the north of England is of the opinion that she is an envelope containing a letter, and with this idea she fixes a stamp on her forehead and imagines that she goes through the post to visit her relatives. The following day she sticks another stamp on for the return journey.

THE GREATEST COMMOTION EVER WITNESSED!

Did you see it? We mean the throng of people crowding to The Mammoth, all eager to get there first to participate in the Great Sacrifice Sale.

We have won the plaudits and praise of ten thousand admirers. We have strengthened the business ties of twenty thousand customers. We have commanded the business respect of fifty thousand acquaintances.

"For just experience tells in every soil,
That those who think will benefit those who toil."

We are Clothing workers and thinkers, making things lively for our numerous salesmen and excessively interesting for every customer.

Our Great Sacrifice Sale

—OF—

Fine Suits and Overcoats

Continues to-morrow and the remainder of the week, and we want to shake the earth of Lima with these tempting bargains of the choice of Suits and Overcoats made up to sell for $18, $16, and $14, are being sold during this great sacrifice sale for $10. Don't wait until these suits and overcoats are all gone, but come to-morrow without fail, as this sacrifice sale positively ends Tuesday night, April 25th. This is no shoddy, flim-flam sale, on paper, but a genuine, legitimate sacrifice sale of seasonable goods.

$10.

THE MAMMOTH'S Sacrifice Sale announcement started the great tidal wave, bringing a flood of patronage from every direction. The public watch and wait regularly for it, counting upon our liberality and enterprise.

$10.00

These Suits and Overcoats are from one of the largest and finest manufacturers in the east, and were bought at just 75c. on the dollar of the cost of making. As The Mammoth is always on the alert for some big bargain, we bought these goods far below the cost to manufacture, and we are retailing them accordingly. The great sacrifice sale positively ends Tuesday, April 25.

WE don't desire to bore you or claim too much of your time by a long list of products, textures, styles, etc. We ask you to compare our garments with other dealers. Don't be guided by the dazzling appearance of the surface. Look at the inside as well as the outside. Examine the sewing. Try the strength of the stitches. See that the buttons are not glued on, but thoroughly adjusted. Pay strict attention to the quality, materials, and trimmings. This done, we are certain that—

Every moment our popular store will be illuminated by a red hot stream of delighted patrons.

Every hour will witness an expansion of trade that will swell like the ocean's billows.

Every day there will be restless ripples of excitement in every department that will intoxicate your soul with delight. Ponder on the sublime act. Oh! public, such a chance is not often caught in these parts.

Remember the Watchword.

WERE HUNGRY

And Stole the C & E Section Men's Dinner Buckets

Early this morning the C & E section men left their dinner pails sitting on a box near the water tank, a short distance west of the passenger depot, and went below the freight house to do some work They returned about an hour later and one of the men, John Schmidt discovered his bucket missing He told the other men of his loss and upon investigation it was found that two other buckets, belonging to the foreman Mike Tuohey and Jack Quimbe were also missing Several tramps had been seen around the depot early in the morning and it was supposed that they were the thieves Policeman Lehman was notified, and made a thorough search through the yards but did not find any one

One of the switchmen, Walter Gordon, afterwards reported that he had seen three colored tramps, in an empty car on an eastbound freight train eating the lunches They are probably in Marion now

The Ohio Southern Wants the Lima Machine Works

A Deal for Their Purchase by the Railroad Company Said to be Going on

It is reported that the Ohio Railroad Company is desirous of securing the Lima Machine Works plant, on Market street, and is negotiating for the purchase of the buildings and machinery complete, for use as their shops

Since building in South Lima, it is understood that the Lima Machine Works have had in view the removal of their works to that part of the city and centralizing all their interests, if they could dispose of their plant on this side at a satisfactory price.

The works would make excellent shops for the railroad company and it would be an easy matter

TO RUN A LINE

down along Hog Creek from Sugar street, connecting with them

It is an open secret that Lima stands a good show of getting the shops, which will have to be built somewhere along the line very shortly as their buildings at Spring field are inadequate The company has been so badly treated by the people of that town that they do not feel like enlarging them and it is almost certain that Lima will get them

The recent order of Mayor McComb, ordering a shut down of the saloons, did not seem to impress Pete Keller and Cris Geiger with the fact that it meant just exactly as it was given, and yesterday their places were open and business transacted They were detected in the act, and Keller and Tim Daily Geiger's bar tender, ordered to appear before the Mayor this afternoon at one o'clock

Both pleaded not guilty and were released until Wednesday and Thursday mornings respectively, when they will be tried

ROUND ABOUT

Prof. C O Thompson's concert has been indefinitely postponed

* * *

W A Simmermacher, formerly a dispatcher on the C H & D but now with the E & O in the same capacity and located at Garret, Ind, was in the city this morning for a few hours shaking hands with his friends

* * *

The City Council will organize tonight by the election of D D Jones, President It is rather strange that this should occur when there will be seven Democrats and five Republicans present but peculiar things sometimes happen in politics

* * *

A proposition has been made by J C Lineman, of Lima, to the gas trustees and the City Council to buy the natural gas plant Mr Lineman proposes to take the plant in its present condition and with all debts and contracts and pay these as they become due, relieving the city of further obligation in the matter Mr Lineman claims that he has at present enough gas territory to furnish our people a good supply of fuel and offers to give satisfactory bond for the faithful performance of his contracts The plant at present owes $20,000, but $400 of this amount is due and payable in May It is a fact probably not known to many of the people that $7 000 of the full amount is for improvement bonds a debt put upon the gas plant when these bonds were issued The entire gas plant up till the first of April cost a little more than $80,000 and taking the $7 000 from the total of $20,000 now due the present indebtedness of the gas plant is virtually $13,000, and next month it will be but $14,000 However Mr Lineman proposes to assume the $7 000 indebtedness on the improvement bonds and consequently if he should take the plant to day he would pay $20,000 for it Whether this is a good offer or not we are unable to say to present, and nobody can intelligently say that it is until he knows what the plant is worth The gas trustees are of the opinion that it would not be a bad idea to dispose of the plant but we do not know that they are willing to sell it at the price offered At present the plant is not prepared to say yes or no on the subject and will not be until we are better posted—Star Wednesday

SLICK MOVE

To Beat the Garnishee Law of Ohio

Nine Weddings To-Day Among the Memphis Colored People Working on the Ohio Southern Ry

The colored importation from Memphis for work on the Ohio Southern, has kept Probate Judge Lindeman busy since morning

It seems they left some unpaid bills behind them, and the parties to whom they were indebted threatened to garnishee their wages unless they settled

To avoid this, they studied up the Ohio law, and found they could beat the garnishee process by marrying some one

They brought with them from the South a number of women, and this morning they began taking out permits to wed At noon nine licenses had been issued, and the words making that nine of their garnishee proof had been spoken by Lider Moss
